

G. R. LOKESH

AWS DevOps Engineer | DevSecOps Engineer | Platform Engineer

Phone: +91 9100948285 | Email: grlokes96@gmail.com | LinkedIn: <http://www.linkedin.com/in/grlokes96> | Hyderabad

PROFESSIONAL SUMMARY

AWS DevOps Engineer with 5+ years of experience designing cloud-native platforms, Kubernetes infrastructure, GitOps workflows, DevSecOps pipelines, and Infrastructure as Code on AWS. Skilled in EKS, Terraform, Argo CD, GitHub Actions, Jenkins, Docker, Helm, and Kubernetes security. Proven track record of reducing deployment time, optimizing cloud costs, improving platform reliability, and implementing secure CI/CD automation across production environments.

TECHNICAL SKILLS

Cloud Platforms: AWS (EC2, EKS, S3, RDS, IAM, VPC, ALB, ECR, ECS, Lambda, Fargate, SNS, ACM, Route 53, CloudWatch)

CI/CD: Jenkins, GitHub Actions, GitLab CI/CD, Argo CD

Containers & Orchestration: Docker, Kubernetes (EKS), Helm

Infrastructure as Code: Terraform, Ansible

DevSecOps: SonarQube, Trivy, Snyk, Checkov

Scripting & Languages: Bash/Shell, Python, YAML

Monitoring & Observability: Prometheus, Grafana, Datadog

PROFESSIONAL EXPERIENCE

ASICS Technologies | AWS DevOps Engineer | Jul 2024 – Aug 2026

- Built CI/CD pipelines with GitHub Actions and Argo CD for 15+ microservices, cutting release time by 60%.
- Implemented GitOps with Argo CD across Dev/QA/UAT/Prod EKS clusters, reducing production incidents by 30%.
- Integrated SonarQube, Trivy, Snyk, Checkov into CI/CD pipelines to enforce pre-deployment security policies.
- Provisioned Kubernetes infrastructure using Terraform and Helm, reducing configuration drift.
- Maintained production-grade Kubernetes (EKS) clusters for 10+ containerized applications.
- Enhanced Kubernetes security using RBAC, IRSA, Pod Security Standards, and Secrets Management.
- Leveraged HPA, Cluster Autoscaler, and Karpenter to optimize Kubernetes workloads and reduce AWS costs by 30%.
- Deployed Istio and AWS ALB for SSL/TLS traffic routing and service communication, increasing API reliability by 30%.
- Optimized cloud infrastructure with AWS Fargate, SNS, ACM, and Route 53, improving efficiency by 50%.
- Integrated Datadog and Alertmanager for Kubernetes monitoring, reducing MTTR by 50%.

Larsen & Toubro Construction (L&T) | DevOps Engineer | Sep 2021 – Jul 2024

- Automated build, test, security scanning, and K8s deployments for 20+ microservices using GitLab CI and Argo CD.
- Secured Jenkins CI/CD pipelines with RBAC, OIDC, and HashiCorp Vault, reducing unauthorized access risk by 80%.
- Containerized 20+ microservices using Docker multi-stage builds, reducing image size by 60%.
- Managed Docker Compose environments for local development, integration testing, and application validation.
- Deployed scalable workloads using Helm Charts, Kubernetes Deployments, StatefulSets, DaemonSets, and CronJobs.
- Configured Kubernetes PVs, PVCs, and EBS CSI drivers for scalable persistent storage management.
- Troubleshooted Kubernetes issues including CrashLoopBackOff, ImagePullBackOff, and OOMKilled errors.
- Implemented Blue-Green and Canary deployments in Kubernetes, improving availability and reducing risks.
- Automated server configuration using Ansible Playbooks and Roles, reducing manual effort by 80%.
- Monitored Kubernetes cluster performance and resource utilization using Prometheus and Grafana.

Progle Infotech | Cloud Support Associate | Apr 2020 – Aug 2021

- Maintained Jenkins CI/CD pipelines across QA, UAT, and Production, enabling daily releases.
- Managed Git repositories, pull requests, and branching strategies for development teams.
- Provided L1/L2 support for AWS infrastructure (EC2, S3, VPC, IAM), maintaining production high availability.
- Enforced IAM least-privilege policies and MFA enforcement, strengthening cloud security compliance.
- Automated backup and disaster recovery using AWS Lambda and EBS Snapshots, reducing data loss risk by 70%.
- Automated routine operational tasks using Bash and Python scripts, improving team productivity.
- Reduced AWS cloud costs by 30% through right-sizing, Cost Explorer, and auto-shutdown automation.
- Managed Jira ITIL workflows, SOPs, and knowledge base documentation for faster incident resolution.

EDUCATION

Bachelor of Technology in Civil Engineering | Annamacharya Institute of Technology and Science | Jan 2015 – Mar 2019
